As a part of the learning, coaches managed the Special Skaters camp, played in tournaments and sat their Coaches' Exam.

Ladakhi coaches learnt skating, teaching and critical thinking skills during 2 advanced coaching clinics.

Goal 2: To offer a group of disabled children and their families a fun winter camp while using the time to evaluate HEALTH's Disabled Children's Programme.

After mornings on the ice, children and their families played games, created dramas and art and helped make a music video to share with Canada schools.

10 special skaters and their families learnt to skate, shared their challenges with abled-skaters and joined in a village tourney at Domkhar.

Special families had time together to share issues and help HEALTH redesign its rehabilitation care programme.

Goal 3: To help the Canadian Team build their skills in project management and teaching different learners.

Canadians dealt with issues not common to their home work situations, designing flexible programmes that successfully supported a mix of learners.

Goal 4: To document the entire experience and share our story with Canadian partner organisations.

The team created multi-media learning materials for Ladakh and Canada.
